

REMARKS

Please note that the Notice of Drawing Inconsistency was mailed after the payment of the issue fee, and even though the description of Figure 6 is found within the specification on page 13 (as originally filed). Notwithstanding this, the USPTO has instructed us to file this amendment to insert the description of Figure 6 into the Brief Description of the Drawings.

To comply with the request of the USPTO, we are submitting this amendment to insert the text "Figure 6 illustrates a trigger according to one embodiment of the invention." within the Brief Description of the Drawings. Support for this language is taken from the description found on page 13 of the specification (as originally filed).

In the event that there is any remaining impediment to a prompt allowance of this application that may be clarified through a telephone interview, the Examiner or Office is requested to contact the undersigned attorney.

Dated this 28 day of November, 2006.

Respectfully submitted,
